## Lion

- Mammalia Carnivora Felidae
- Length (incl. tail): approx. 1.5 to 2.4m (approx. 4.92 to 7.87 feet)
- Weight: approx. 150 to 260kg (approx. 330.69 to 573.20 lbs)
- Habitat: Certain regions of Africa and India

The lion is a large carnivore from the cat family. Its current habitat is limited to some areas of Africa and India, but there was a time when lions could be found all over Africa, Asia, and southern Europe. The lion's dignified appearance and demeanor, along with its ranking among the strongest animals in the world, make it known as the "king of beasts." Lions usually travel in groups known as "prides," usually consisting of one or two males, three to six females and several children. They feed on many different things, their prey including everything from beetles and reptiles, to large herbivorous animals.

### Tools

Scissors  
 Paste, or woodwork glue  
 Stencil pen, or bodkin  
 Ruler

### Notation Key

——— Scissors line  
 ..... Mountain fold  
 - - - - Valley fold  
 + Glue spot
