View of completed model

*This model was designed for Papercraft and may differ from the original in some respects.

■ Assembly Instructions: Four A4 sheets (No. 1 to No. 4)

*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.

*Hint: Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

Assembly Instructions

 -----	Mountain fold(dotted line) Make a mountain fold.
 -----	Valley fold(dashed and dotted line) Make a valley fold.
 -----	Scissors line(solid line) Cut along the line.
 -----	Cut in line(solid line) Cut along the line.

Tools and materials

 Scissors, set square, glue (We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers, (useful for handling small parts)

Assembly tip

 Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

Caution

 Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly: Writing the number of each section on its back side before cutting out the sections is highly recommended.
(* This way, you can be sure which section is which even after cutting out the sections.)

 Indicates where sections should be glued together.

* In addition to the separate day and night models, you can build an Eiffel Tower model with combined day and night backgrounds.

[1] Assemble the tower structure (the base below the pillars).

Attach the rear surface parts after first attaching the side surface parts into place.

Attach these pieces in the same way as on the opposite side.

Attach parts 8 and 10 last.

Build the other structure in identical fashion.

* Assemble the night parts in the same way.
Night part numbers are the same as for the day parts.

[2] Assemble the structure by putting the parts together in numbered order, aligning the printed symbols appearing on the parts.

* Assemble these parts so that the structure is flush with the background.

Attach part 16 into position on the white area of part 15.

Attach part 15 into position along the white line on part 14.

Attach part 14 into position along the white line on top of part 13.

Attach the base, then fold in the side flaps.

Attach the pillars into place so that they align with the white symbols printed on top of part 14.

Attach the bottom in the same way.

Left side

Right side

Build the other structure in identical fashion.

* Assemble the night parts in the same way.
Night part numbers are the same as for the day parts.

[3] Assemble the structure.

* Assemble these parts so that the structure is flush with the background.

Attach the sides in the same way.

Attach in the same way as the top.

Build the other structure in identical fashion.
* Assemble the night parts in the same way.
Night part numbers are the same as for the day parts.

[4] Assemble the base.

Before attaching the parts, draw lines crossing perpendicularly at the center on the reverse side of part 32.

* Finally, glue the edges of the towers together.

* After assembling the rear sides of the two Eiffel Towers, attach them atop the base.

Turn the base upside down and attach part 37 to align with the lines you drew in the previous step.
