

Balance Toy "Yajirobe" (Toco Toucan)

A balancing toy is a toy that rocks back and forth without falling over, due to its center of gravity being below the fulcrum point. This balancing toy is based on a toco toucan, with its distinctive large beak. Its beak and wings also move as it rocks. Find the proper balance and have fun playing!

Assembly Instructions

- 1: Carefully cut out the parts.
- 2: Fold along the dotted lines, making mountain or valley folds as indicated.
- 3: Attach the glue tabs on each part to assemble the model. (Read the assembly instruction for more information.)
- 4: Attach the parts in order. (Read the assembly instruction for more information.)
- 5: Your paper craft model is finished!

Tools

Scissors, glue (We recommend craft glue.)

Caution

Keep scissors and glue away from small children.
Be careful not to cut your fingers when using scissors.

Explanation of Symbols

-  Cut line
-  Valley fold

-  Insert (Do not apply glue)
-  Glue tab
Attach to a point within the same piece
-  Glue tab
Attach to a separate piece

Assembling the main part

1. Assemble ① and ② and attach them together.

Fold and glue together here.

Fold and glue together here.

2. Assemble ③ and attach it to ②.

Lastly, glue together so that it is covered.

3. Fold and glue down ④ and ⑤. Next, assemble ⑥, glue ④ and ⑤ to the inside, and attach ⑦.

4. Adjust the balance of the bottom part of the beak and insert it into the body.

Assembling the tail

5. Assemble ⑨ and ⑩, ⑪ and ⑫ and attach each together.

6. Attach ⑨ and ⑩ to ②. Next, glue ②, ⑨, and ⑩ to ⑬.

Assembling the weight

7. Assemble and attach ⑭ and ⑮ and assemble ⑯ and ⑰. Next, glue ⑯, ⑨, and ⑩ to ⑭.

Assembling the stand

8. Assemble ⑱ and ⑲ and attach them together.

9. Assemble ⑳ and then attach it to ⑱. Lastly, place the Toucan on the stand and it is complete.
