

Budgerigar

The Budgerigar is a small Australian parrot. Very popular throughout the world as pets, along with the Bengalese finch and Java sparrow, the color and marking variations comprise more than 5,000 species. Wild varieties commonly have yellow heads with fine black horizontal bars from the crown to the back of the head. Adults grow to about 20 cm in length and they primarily eat plant seeds.

*Assembly instructions on pages 1 and 2, and pattern on page 3.

★ **Assembly Instructions**

- 1) Carefully cut out the parts.
- 2) Fold along the dotted lines, making mountain or valley folds as indicated.
- 3) Follow the order indicated in the instructional diagrams, and attach the parts to assemble.
(Read the Explanation of Symbols for more information.)
- 4) Your paper craft model is finished!

★ **Tools**

Scissors, glue (We recommend craft glue.)

★ **Caution**

Keep scissors and glue away from small children.
Be careful not to cut your fingers when using scissors.
Fold the folding lines before gluing.

★ **Explanation of Symbols**
