#### Tools and materials

Scissors, set square, glue (We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers, (useful for handling small parts)

#### Assembly tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

#### Caution

Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly: Writing the number of each section on its back side before cutting out the sections is highly recommended. (\* This way, you can be sure which section is which even after cutting out the sections.)

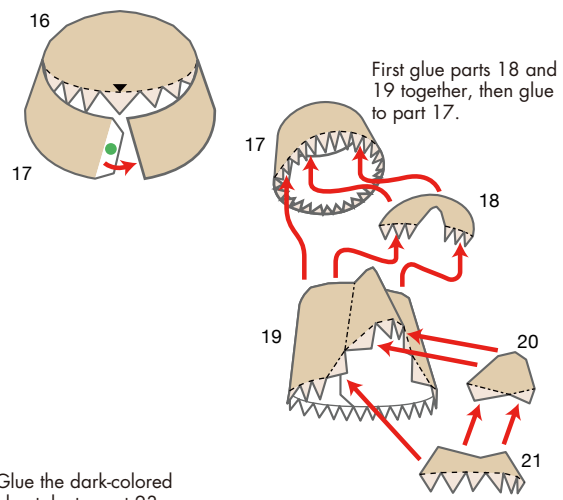

→ Indicates where sections should be glued together.
