

Completed image

Example arrangement

You will need

- Scissors, glue, ruler, dried-up ballpoint pen, rounded pencil (or similar object)

Assembly tips

- Begin by placing the ruler against the fold lines and drawing the empty ballpoint pen over them so that it is easy to make clean folds.
- Shaping the stem by rounding it using the rounded pencil or similar object will make it easier to roll.

Lines and icons

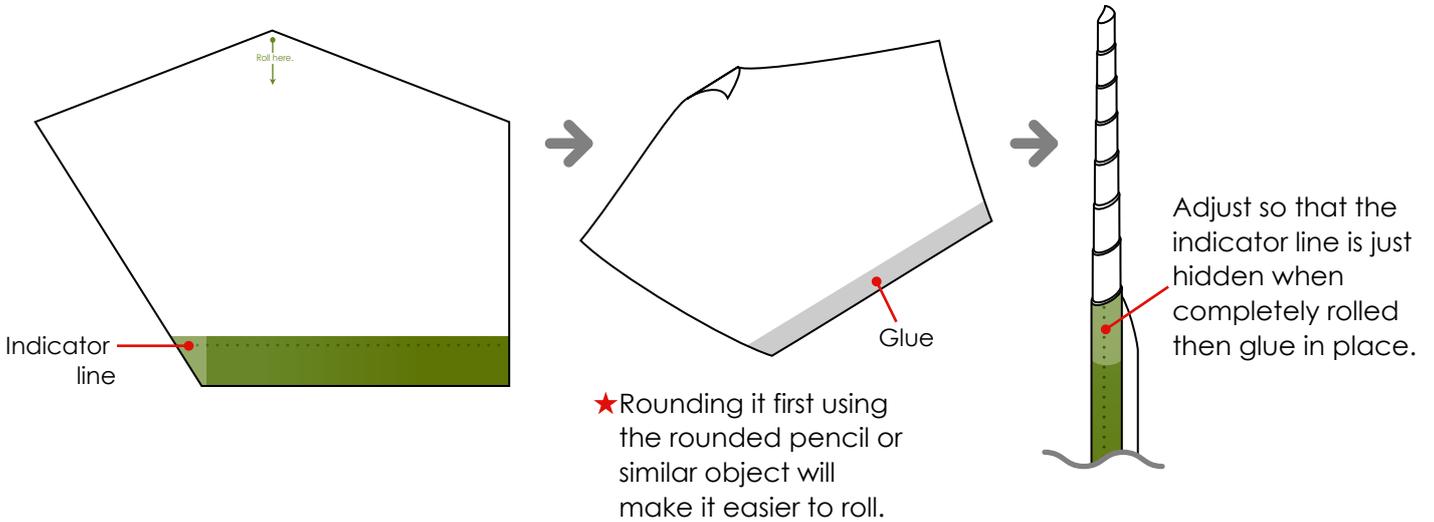

- Scissors line 
- Mountain fold 
- Valley fold 
- Indicator line 
- Tips 

Caution

- *Glue, scissors and other tools and materials may be harmful to children.
Please keep your work out of the reach of children.

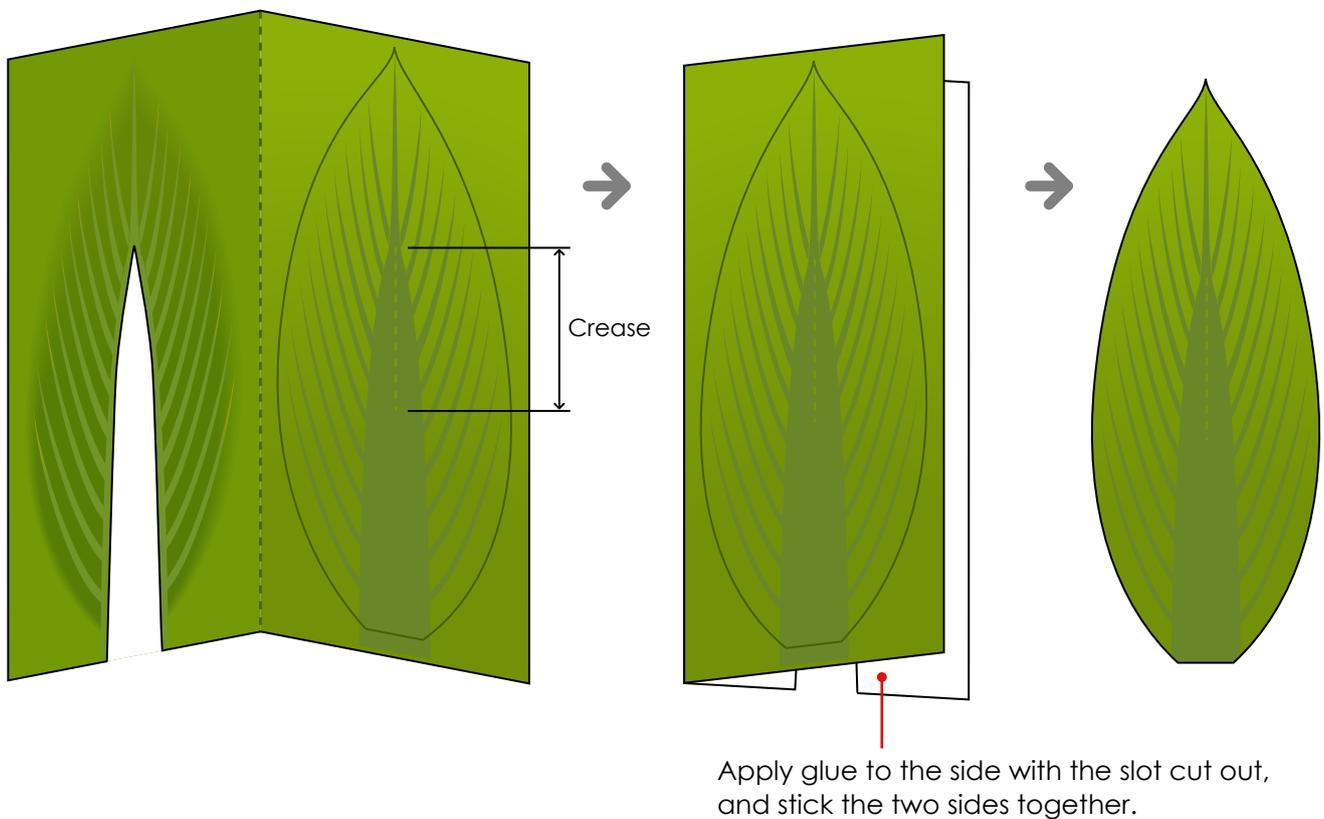

1 Make the Stem

Cut the stem out along the scissors line and roll it tightly starting at "Roll here."

2 Make the Leaf

Follow the line around the outside to cut out the part, then make creases at the center of the leaf. Fold in half and glue together, then cut out the leaf shape.

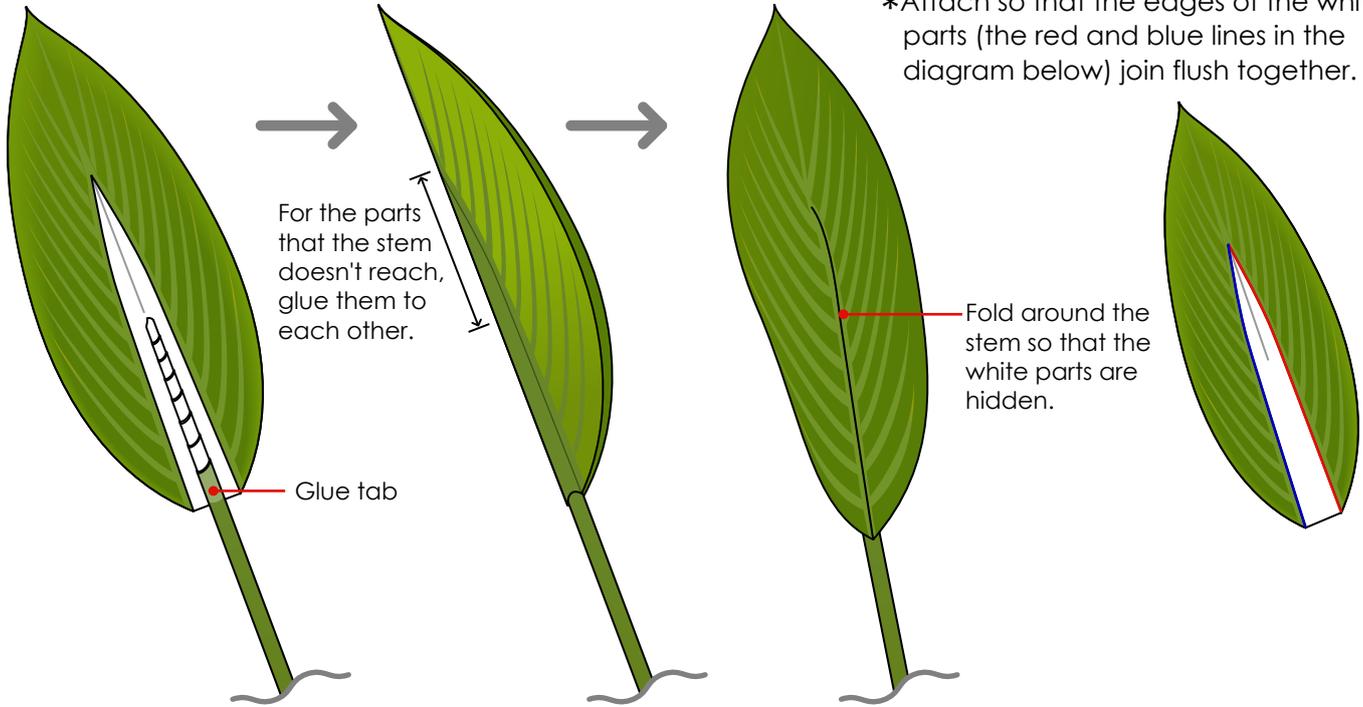

3 Attach the leaf to the stem and complete your dracaena

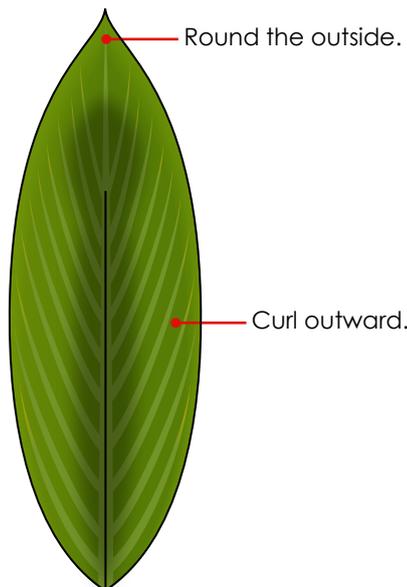

Before applying glue, place the stem in the center of the leaf, positioning it so that the glue spot will be hidden inside the leaf. Fold the white section around the stem to give the leaf shape.

Apply glue to the white parts of the leaf, and attach the stem to it.

*Attach so that the edges of the white parts (the red and blue lines in the diagram below) join flush together.

<Rounding the leaves>

To finish, round the leaf.
