1 Assemble the leaves

Fold the parts in half and glue the halves together at the back.
After the glue dries, cut away the pink area.
Make all the leaves ([G-01] ~ [G-03], [G-05], [G-08] ~ [G-10]
and [G-11] ~ [G-15]) in the same way.

2 Assemble the leaves

3 Assemble the leaves

4 Assemble the stand

5 Attach to the stand

Attach [G-08] ~ [G-10] to
the orange glue spots
on the stand.

[G-08] ~ [G-10] are the same shape,
so it doesn't matter if the parts get mixed up.

6 Attach to the stand

Attach [G-11] ~ [G-15] to
the green glue spots
on the stand.

[G-11] ~ [G-15] are the same shape,
so it doesn't matter if the parts get mixed up.

7 Assemble the leaves

Insert the central leaves into the triangular hole in the stand.

8 Complete

Get your pot (made separately) and attach the plant.
Fold up the light blue parts of the stand (the "wings" at the sides), and insert them into the slits on the pot (do not apply glue).
The wings will unfold inside, securing the plant in place.

*We will use the navy pot as our model.

1 Assemble the side parts

Do not put glue on the light blue area at the bottom yet.

2 Assemble the upper parts

3
